## 1. GENERAL INFORMATION

### 1.1 About Life Engineering

- 1.1.1 Life Engineering (also known as “**Project LE**”) is an initiative aimed at mobilising crowd effort to engineer positive social impact in the well-being and quality of life. Project LE delivers online based crowd caring and sharing programs that serve as a trusted platform to connect individuals passionate about improving the way the community life (“**LE Community**”) by sharing each other’s burden and caring about each others’ well being particularly in the area of health care.
- 1.1.2 Crowd Care Sdn. Bhd. (“**Administrator**”) is an entity founded to accomplish Project LE and will be the administrator of the programs launched under Project LE. Currently Life Engineering – Medical is the only program that has been launched under Project LE. Various programs are in the pipeline and will be launched and made available to the LE Community in due course.
- 1.1.3 The Administrator has appointed a third party legal firm as an independent trustee (“**Appointed Trustee**”): Ong & Manecksha, Advocates & Solicitors to manage the funds contributed by the sharers.
- 1.1.4 The Administrator has also established a strategic partnership with an established third party Professional Medical Auditor (“**PMA**”), Eximius Medical Administration Solutions Sdn. Bhd. (EMAS) to administer the entire hospitalisation and claim process for the program.

### 1.2 What is this Program

- 1.2.1 Based on a share economy approach, Life Engineering – Medical is a health care cost sharing program (“**Program**”) where a group of like-minded individual (“**Sharer**”) voluntarily come together to share each others’ health care and medical expenses (“**Medical Expenses**”) in a mutually beneficial way.
- 1.2.2 This Program is based on the beliefs in mutual aid, community assistance, and shared responsibility. Sharer comes together to share each other’s Medical Expenses not only as matter of convenience or cost savings, but because they are driven by conscience to support, care and help each other during times of crises. The concept of shared responsibility also encourages Sharers to live a healthy lifestyle and make responsible choices with regards to health. The ultimate aim of Program is for everyone in the LE Community to have access to medical assistance when needed.

### 1.3 How this Program works

With health insurance, the insurer agrees to pay a person's Medical Expenses with its own funds in return of that person paying the insurer a premium. Whereas in this Program, Sharers voluntarily commit to contribute their monies ("**Share**") into a share pool ("**Share Pool**") to share the Medical Expenses of any Sharer who is in need of medical treatment ("**Treatment**"). The Administrator coordinates the Share to meet the eligible Medical Expenses on a monthly basis or any other suitable time intervals according to the Program's rules and regulation ("**Program Guideline**"). It is important to note that the Share Pool does not belong to the Administrator. It is held and managed by an Appointed Trustee who will administer the disbursement to the Administrator as reimbursement. The sharing process is summarised as follows:

- 1.3.1 When a Sharer joins the program, each Sharer will put aside a Sharing Deposit ("Sharing Deposit") presently set at RM100 as his or her future contribution to their Share and to facilitate the crowd share. This is done via agreed payment method, e.g. by debiting from his credit card/debit card.
- 1.3.2 The Sharing Deposit will be placed into a trust account ("Trust Account") established solely for this medical cost sharing purpose to meet sharers' Specific Monthly Share Amount. An Appointed Trustee shall manage this Trust Account.
- 1.3.3 By submitting the Sharing Deposit, Sharer shall be deemed to have consented to the Administrator utilising the amount to share Eligible Medical Expenses according to the Program Guideline.
- 1.3.4 Each Sharer shall observe a period of 60 days ("Deferred Period") from date of joining (upon payment of items mentioned in 1.3.1 and Annual Participation Fee) whereby he cannot seek medical help from the Panel Hospital under the Program. He also is not required to contribute to the Specific Monthly Share Amount during this Period. The Deferred Period is set up to ensure we have the right and better community in the long run.
- 1.3.5 After the Deferred Period, whenever a Sharer has a need to seek approved medical treatment under the program, he can approach the panel of hospitals ("**Panel Hospitals**").
- 1.3.6 Sharer presents Project LE and our PMA Identification to the Panel Hospital for pre authorisation on the proposed Treatment.
- 1.3.7 In the case of emergency hospital admission, emergency case as life threaten, Sharer can contact PMA directly and obtain admission to one of the Panel Hospitals immediately.

- 1.3.8 In the case of non-emergency hospital admission, Sharer would make the admission request via Panel Hospital admission. Panel Hospital Admission will liaise with PMA to seek permission and set admission appointment.
- 1.3.9 Sharer will be notified by email after PMA evaluation for admission acceptance.
- 1.3.10 Once approved, PMA will issue “Guarantee Letter” and “Top-Up Guarantee Letter” if necessary.
- 1.3.11 Prior to discharge, the Panel Hospital sends the bill of the Medical Expenses directly to the PMA.
- 1.3.12 The PMA receives and processes the Medical Expenses for sharing eligibility and discount.
- 1.3.13 When a sharer is discharged, a Final Guarantee Letter (“Final Guarantee Letter”) shall be issued by PMA on Project LE’s behalf to the Provider.
- 1.3.14 The said Provider shall issue PMA an invoice based on the said Guarantee Letter, of which later PMA shall forward to us for payment. Project LE shall pay the Eligible Medical Expenses to the Provider via PMA from its own temporary Medical Fund before claiming reimbursement from the Trust Account.
- 1.3.15 The total amount of all Final Guarantee Letters as of the Monthly Cut-Off Date shall be collated and crowd shared among the total eligible sharers as at the Monthly Cut-Off Date. A Specific Monthly Share Amount per sharer is determined through this calculation (see Section 4.1.2)
- 1.3.16 The Appointed Trustee shall be notified on the total amount committed. The Specific Monthly Share Amount is deducted from the Minimum Commitment Sum for each Sharer. If the balance of the Minimum Commitment Sum is less than or equal to RM50, the Sharer’s debit/credit card shall be debited with necessary amount to bring the Minimum Commitment Sum to RM100.
- 1.3.17 Project LE shall only present to the Appointed Trustee all invoices from hospitals paid by Project LE for reimbursement. After which the Appointed Trustee shall paid accordingly to Project LE.

#### **1.4 This Program is an alternative to health insurance**

This Program is not a health insurance but an alternative healthcare option that is simple, affordable and entirely funded by Sharers themselves. It is the most efficient and creative

solution to the problems of escalating healthcare and medical costs and expensive health insurance policies. Through the extensive use of technology, this Program also offers a simple and instant access to healthcare as compared to the tedious process of obtaining a traditional health insurance policy that is complex and restrictive. The following are several reasons how the Monthly Share Pledge is kept low in this Program:

**1.4.1 It is non-profit oriented program**

The Administrator does not make money out of Sharers. This non-profit oriented Program ensures that no premium or other payment will be collected and gained from Sharers. This means Sharers contribute only to the sharing of Eligible Medical Expenses and the administrative cost of this Program.

**1.4.2 Sharers share in actual Medical Expenses not projections**

This Program is not an insurance business and is not run by an insurance company. This Program or the Administrator does not try to predict mathematically the expected Medical Expenses of the Sharers. The Sharers share only the actual Medical Expenses incurred not the projected figures. Ultimately, the more Sharers this Program has, the lower the amount of Share will be.

**1.4.3 Lifetime crowd sharing**

Subject to Clause 2.2, 2.5, 2.6 and 2.7 herein, once a sharer joins in, he or she will be in LE community for as long as the Sharer wishes to remain as a sharer for the rest of his life time and enjoy the benefits of this Program.

**1.4.4 Sharers are committed to live healthy life**

Because this Program emphasizes on the concept of shared responsibility, Sharers are encouraged to reduce the shared financial burden of the group as a whole. This creates an incentive for Sharers to make responsible and cost effective choices in health care and to live a healthy lifestyle. A health and cost conscious community will tend to have fewer medical incidents and better quality of health which lead to lower health care costs.

**1.4.5 Sharers are committed to be honest about their declaration**

Sharers are required to make a list of declarations about their health condition and lifestyle as well as fully understand the core principles of the Program in the Program Guidelines. False declaration will result in immediate disqualification. This is to ensure that all Sharers share the same spirit of connecting individuals passionate about improving the way the community live by sharing each other's burden and caring about each others' well being particularly in the area of health care.

Sharer also authorise Life Engineering to have full access to retrieve all medical reports and relevant tests and documents if Share has prior medical claims before joining this Program.

**1.4.6 Hospital Admission and Medical Treatment are examined upfront and effectively managed for best possible outcome**

The Administrator has also established a strategic partnership with an established and experienced third party Professional Medical Auditor (“PMA”) to administer the entire hospitalisation and claim process for the program. This is to ensure Medical Expenses are managed effectively and sharers get the best possible outcome in this Program. Constant education on managing one’s health and medical cost will also be provided.

**1.4.7 The administrative cost of this Program is kept low**

The administrative and operating costs of this Program are kept to a minimum. Most importantly, no agency fees are required to be paid out of this Program, as the Administrator makes use of the convenience of online channels and technology to administer and market this Program to reduce costs. The Program collects RM100 annual participation fee (“Annual Participation Fee”) to defray the expenses particularly in engaging the PMA as well as the Appointed Trustee. The monthly RM8.33 per sharer is deemed low.

**1.4.8 Contribution and sponsors from third parties including advertisements and other auxiliary revenues generated from this Program**

It is the objective of this Program to further lower each Sharer’s financial commitment by engaging advertisers to advertise on the app platform. The right advertisers shall be engaged and to provide further information on suitable products and services to the LE Community. Part of the revenue (up to 30% of net profit) generated from the advertisement shall be used to further lower the Specific Monthly Share Amount of each sharer. It is our vision to reach ZERO Specific Monthly Share Amount in some foreseeable future.

**1.5 Disclaimer**

1.5.1 This Program is administered on behalf of Sharers by the Administrator as a platform for Sharers to share their healthcare and medical burden in accordance with the Program Guideline. Neither the Administrator nor the Sharers guarantee or promise that the Eligible Medical Expenses will be shared by the Sharers of this Program.

1.5.2 The financial assistance a Sharer receives under this Program does not come from the Administrator’s own funds but will come from other Sharers’ monthly sharing contributions that are placed in a trustee account. Whether other Sharers choose to assist a Sharer with his or her medical expenses will be totally voluntary (not guaranteed in any way), as no other Sharers or the Administrator will be compelled by law to make such sharing contribution. However, a Sharer’s failure to share will result in Sharer’s ability to seek medical cost sharing presently and/or in the future as stipulated in the Program Guideline.

- 1.5.3 Whether a Sharer's medical expenses are shared by other Sharers or whether a Sharer receives any payment for medical expenses or whether or not this Program continues to operate, a Sharer will always remain personally liable at all times for any and all of his or her unpaid medical expenses.
- 1.5.4 This Program is not, and should never be construed as, a contract for insurance nor is it offered through an insurance company. This Program is also not a substitute for insurance policy required under any legislation. There is no transfer of risk for any purpose from a Sharer to the Administrator or from a Sharer to other Sharers; nor is there a contract of indemnity or guarantee between the Administrator and any Sharers or amongst the Sharers themselves. Neither the Administrator nor Sharers are considered as an insurer under Malaysian law. This Program is not subject to the insurance regulatory requirements or consumer protections of the country.
- 1.5.5 The Administrator encourages Sharers to consult a health insurance professional to further explain the difference between regulated health insurance and crowd sharing program such as this Program.

## **5.5 Hospital Admission and Submission of Medical Expenses for Crowd Sharing**

- 5.5.1 Sharer must seek medical treatment from Panel Hospitals only.
- 5.5.2 Sharer presents Project LE and our PMA Identification to the Panel Hospital for pre authorisation on the proposed Treatment.
- 5.5.3 The Panel Hospital notifies the PMA of any hospital admission and the proposed Treatment and obtain necessary approval for admission. Once approved, PMA will issue Guarantee Letter and Top-Up Guarantee Letter If necessary.
- 5.5.4 Prior to discharge, the Panel Hospital sends the bill of the Medical Expenses directly to the PMA.
- 5.5.5 The PMA receives and processes the Medical Expenses for sharing eligibility and discount.
- 5.5.6 When a sharer is discharged, a Final Guarantee Letter (“Final Guarantee Letter”) shall be issued by PMA on Project LE’s behalf to the Provider.
- 5.5.7 The said Provider shall issue PMA an invoice based on the said Guarantee Letter, of which later PMA shall forward to us for payment. Project LE shall pay the Eligible Medical Expenses to the Provider via PMA from its own temporary Medical Fund before claiming reimbursement from the Trust Account.
- 5.5.8 The total amount of all Final Guarantee Letters as of the Monthly Cut-Off Date shall be collated and crowd shared among the total eligible sharers as at the Monthly Cut-Off Date. A Specific Monthly Share Amount per sharer is determined through this calculation (see Section 2.1.2)
- 5.5.9 The Appointed Trustee shall be notified on the total amount committed. The Specific Monthly Share Amount is deducted from the Sharing Deposit for each Sharer. - 5.5.10 Project LE shall only present to the Appointed Trustee all invoices from hospitals paid by Project LE for reimbursement. After which the Appointed Trustee shall paid accordingly to Project LE.

## 5.6 The Program is Secondary to other Sources

- 5.6.1 If the Medical Expenses of a Sharer are simultaneously covered or under the responsibility of another insurance type arrangement or third party liability (party responsible for causing the Disability), the Sharer is encouraged to claim his Medical Expenses from such insurer or third party ("**Primary Responsible Party**") rather than submitting the Medical Expenses to the Program for sharing. Conditions may be imposed by the Administrator on the sharing of Medical Expenses in such circumstances.
- 5.6.2 If a Sharer suffers an injury and a Primary Responsible Party refuses to pay unless legal remedies are pursued, the Sharer must pursue his legal remedies. The Administrator, on behalf and for the benefit of all Sharers, will be subrogated to any and all rights and remedies that a Sharer has against any Primary Responsible Party to the extent of such shared Medical Expenses and shall be entitled to sue on behalf of such Sharer to recover the shared Medical Expenses from the Primary Responsible Party. The Sharer shall give or cause to be given to the Administrator all such cooperation and assistance as required by the Administrator to determine whether such shared Medical Expenses are payable by the Primary Responsible Party and to secure the rights and remedies. The Sharer shall also at the Administrator's request, execute or caused to be executed all documents necessary to enable the Administrator to effectively bring the suit. If the Sharer does not cooperate fully and assist the Administrator, the Medical Expenses will not be eligible for sharing under this Program and shall refund all shared Medical Expenses paid for the Sharer.
- 5.6.3 Any amount paid by the Primary Responsibility Party will not be shared. If the Medical Expenses are shared in the Program and later voluntarily reimbursed by a Primary Responsible Party or compensated by Primary Responsible Party in settlement, judgment or other award or recovery, such reimbursement or compensation (to the extent they fairly represent compensation for the shared Medical Expenses) must be returned by the Sharer to the Share Pool immediately for future sharing.

## 6. GOVERNING AND DECISION MAKING

### 6.1 Program Guideline

This Program is governed and regulated by this Program Guideline. The Administrator is responsible to formulate and enforce the Program Guideline. By becoming a participant of the Program, Sharer agrees to adhere to the Program Guideline. The Program Guideline current at the time of service shall govern the Program, not the Program Guideline in effect when a Sharer joined this Program. The Program Guideline is final and will overrule any verbal statement made by employees or representatives of the Administrator.

### 6.2 Amending the Program Guideline

6.2.1 The Program Guideline may be amended from time to time as circumstances require and as determined to be appropriate by the Administrator. The Administrator has the option, at its full discretion, of first taking an advisory vote among, or feedbacks recommendation from, Sharers prior to making such amendments. Amendments to the Program Guideline will go into effect as soon as is administratively practical or as otherwise designated by the Administrator (“**Effective Date**”) and such amended Program Guideline shall supersede all other editions of the Program Guideline and any other communication, written or verbal.

6.2.2 For the avoidance doubt, Medical Expenses submitted to the Administrator for sharing after the Effective Date will be subject to the amendments of the Program Guideline, regardless of when the Medical Expenses are incurred.

6.2.3 The latest Program Guidelines can be accessed via the link in the App. It the Sharer’s responsibility to refer and refresh on the Program Guidelines from time to time.

### 6.3 Dispute Resolutions and Appeal

This Program is a crowd-based effort where its participants voluntarily come together to support, care and assist each other in a mutually beneficial way. Such a shared responsible program may not be successfully implemented without its participants understanding and adhering strictly to this Program Guideline. As such, it is important that in the event any question, issue, complaint, claim, dispute or disagreement arising out of, or related to, this Program or the Program Guideline (particularly on the interpretation of any provision of this Program Guideline) (“**Dispute**”) occurs, a methodology for determining and addressing the Dispute must be made available. By agreeing to participate in this Program, a Sharer agrees that any Dispute he may have with or against one another, this Program, the Administrators and/or its directors, employees, representatives and associates, will be settled using the following procedures, and only as a course of last resort.

### 6.3.1 Determining the Dispute

Any Dispute can be referred to the Administrator for determination. Sharers may contact the Administrator's service representatives. Please refer to our website at [www.lifeengineering.my](http://www.lifeengineering.my) for the contact information.

Although the Service Representatives are trained to be forthright in telephone conversations and social media platform, routine responses via emails and social media apps, and oral opinions offered by them do not constitute binding decisions of the Administrator. Sharers who call to inform the Service Representatives of their circumstances in order to determine a Dispute will be given an opinion—not a binding decision. Formal enquiries by Sharer in writing explaining circumstances and specifically seeking a binding decision from the Administrator ("**Decision**") will be answered in writing and will explicitly indicate if it is a decision that will bind the Administrator and the Program.

### 6.3.2 Review by Appeal Committee

If a Sharer is not satisfied with the Decision and has logical reasons to believe that the Decision is incorrectly made, the Sharer may file an appeal for review and reconsideration to the Program's appeal committee ("**Appeal Committee**"). The appeal for a review must be made within 30 days from the day the Decision was made and must be in writing, stating the elements of the Dispute and all the relevant facts.

Importantly, the appeal shall address all of the following, where applicable:

- (i) What information does the Administrator has that is either incomplete or incorrect?
- (ii) How do you believe the Administrator has misinterpreted the information already on hand?
- (iii) What provision in the Program Guideline do you believe the Administrator has misapplied or misinterpreted?

If required, the Internal Appeal Committee may call for a meeting with the appellant to discuss and/or require the appellant to furnish further documents or commence further investigation.

Within 30 days from the appeal or such other longer time as shall be required, the Appeal Committee will deliberate on the Dispute and initial Decision and render a written decision to the Sharer. The Appeal Committee's Decision will final and be binding on both the Administrator and the Sharer.

The Administrator reserves the right to impose an appeal fee payable by the Sharer.

### 6.3.3 **Decision made by the Appeal Committee is final and binding**

In the interest of this Program, Sharers agree that the above methods of resolving Dispute shall be the sole remedy for any Dispute and expressly waive his right to file a lawsuit in any civil court against one another, the Administrator and/or its directors, employees, associates or representatives, for such Disputes.

### 6.3.4 **Applicable Law**

For all matters of procedure and substance regarding any Dispute that comes within these above requirements, the laws of Malaysia shall govern.

## 6.4 **Alternative Avenue to present Non-Eligible Medical Expenses**

6.4.1 Nearly all Medical Expenses can be determined to be shareable or not in accordance with this Program Guideline. In matters where this Program Guideline may not provide absolute clarity, the Administrator can usually determine whether the Medical Expenses should be shared according to procedure and precedent.

6.4.2 If a Sharer believes the Administrator is misinterpreting this Program Guideline or his circumstances, the aggrieved Sharer may seek reconsideration through the appeal procedure outlined above. Regardless of the appeal's outcome, the existence of this appeal procedure should not be interpreted as creating any expectation of sharing or a legally enforceable right since there are no contractual rights of sharing under this Program Guideline. Rather, the procedure is a method by which Sharers can be sure that the Administrator is sharing the Medical Expenses according to this Program Guideline.

6.4.3 Recognising the hardship that may cause to a Sharer who has incurred Medical Expenses that are not eligible to be shared according to this Program Guideline ("**Non-Eligible Medical Expenses**"), the Administrator has designated another sharing avenue known as "**Compassionate Sharing**" for the sharing of these Non-Eligible Medical Expenses.

6.4.4 Request for sharing of the Non-Eligible Medical Expenses submitted via Compassionate Sharing will be evaluated on such criteria as the extent of the financial burden to the Sharer, the availability of assistance from other sources, the degree to which the Medical Expenses was avoidable, and the number of other pending requests.

6.4.5 The Administrator may at his absolute discretion select and determine one or more of these Non Eligible Medical Expenses to be shared via Compassionate Sharing whereby other Sharers may contribute (but not obliged to) any amount of their own choosing in addition to their regular Specific Monthly Share Amount to assist those Sharers with Non-Eligible Medical Expenses. The contributions made by other Sharers via Compassionate Sharing is entirely voluntary and will be shared proportionately among all the Non-Eligible Medical Expenses if the total contributions could not cover the total Non Eligible Medical Expenses requested for sharing. For the purpose of this Section, the Administrator may with the prior consent of the Sharer, publish such information or documents for the viewing of the other Sharers to make an informed decision to contribute additional contribution via the Compassionate Sharing.

## **7. ACCOUNTABILITY, IMPARTIALITY AND INTEGRITY**

The Share Pool is merely held on trust by the Administrator and shall not be invested by the Administrator in any non approved investments.

### **7.2 Proper Use**

Trust works both ways between Sharers and the Administrator. The Administrator ensures the Program is administered according to this Program Guideline and in return Sharers fulfill their pledge to contribute to their Monthly Share Pledge, when required. The Auditor's report will be published on the

Program's website for Sharer's viewing within 6 months from the end of each financial year.

## **7.5 Internal Control Procedures**

To prevent conflict of interest and facilitate greater accountability in relation to this Program, the Administrator implements the following internal control procedures:

### **7.5.1 Segregation of duties to reduce the likelihood of errors and irregularities**

An employee shall not have overlapping responsibilities on these four transaction components: recruitment, record keeping, custody, authorisation. For example:

- (i) employees who recruits Sharers and process Sharers' application do not authorise the sharing of Eligible Medical Expenses;
- (ii) employees who record the receipt of monies in the Share Pool do not have custody over the Share Pool.
- (iii) employees who process and record Eligible Medical Expenses do not authorise the sharing of the Eligible Medical Expenses;
